

Here are the answers to the questions you were asking [at the blog](#) about Passive Cashflow Secrets...

1 What's the cost of Passive Cashflow Secrets?

The introductory price will be very affordable. This isn't a "big box" product, it's movies and PDF transcripts delivered online... hence I can keep the price down to an affordable level. :-)

2 Do I need JV partners to make it work?

For many of my examples, and for the concept as a whole, no. For one or two of the examples, JV partners were helpful although not necessary. JV partners can speed up some attempts to make money online... that makes them useful, not essential. ;-)

3 What about affiliate marketing?

Affiliate marketing is covered in three of the movies and one of my best examples of passive income was related to affiliate marketing. The idea is to do affiliate marketing in the right way to build passive cashflow.

4 Can this program help the 'average' person build multiple income streams online?

Yes, absolutely. This is for people of all experience levels. It's about getting you to look differently at making money online. I want to change your perceptions and beliefs so that you make the most amount of money for the least amount of effort.

That doesn't mean I'll be talking "waffle". Most people will tell you that one of my abilities is to boil down complex ideas and make them seem simple. I think that comes from my science background. I'll give you many examples of personal passive cashflow success stories as well as the concrete background information you'll need to put the examples in context.

5 [making money online] is always about traffic and how to get traffic to your site. Without that your business will be "very" passive.

Yes, indeed... but some people are making much better use of traffic than others. Do you know where to send traffic in order to build an income source you don't have to touch for seven years (and counting). It's not how much traffic you have, it's what you do with it. :-)

6 Is it a proven, systematic, approach?

It is most definitely proven, yes. It isn't systematic because different people will want to do different things. I provide many different examples for how to make passive cashflow successfully. It's then up to the reader to decide which ones they want to follow.

7 How to spot the "perfect" passive cashflow opportunity.

There's a whole movie about that. I even give you an example of an opportunity that was emailed to me... and I show you the "hidden" passive cashflow elements within the opportunity which made it worthwhile pursuing. :-)

8 Will there be a lightbulb moment?

Oh, I certainly hope so... that's what I really, really want you to get... a lightbulb moment! :-) If you follow the movies and email me saying, "I had a lightbulb moment and really get what you're saying", the product will be a success. :-)

9 I'd most like to know what differentiates Passive Cashflow Secrets from everything else.

A: It's chock full of proven examples. Not one or two, but many different proven ways to make passive cashflow. I also explain the concept, so you know what to do, and why it's important.

B: I have a science background and boil everything down to find the simplest solutions to a problem. I don't waffle or beat around the bush. I respect the time you'll be investing to watch the movies and I hope I've done a good job of explaining everything to you.

10 How much time do you need to set up the Passive Income Streams?

It depends on how well you grasp the concept, how well you implement my suggestions and how motivated you are. Basically, any marketer who tells you how long anything will take is picking a number from thin air, and I don't intend to do that. :-)

11 How much time do you need to spend to maintain and make sure these systems are continuously and properly working?

Zero. If you've done it right, it's passive cashflow... or as close as you can possibly get to passive cashflow and still make large amounts of money. :-)

Some examples are of generating 100% passive cashflow after you set the system up, and some examples require a small amount of infrequent effort after

the system is set up to generate the results I show... but ALL of the examples are of the very highest income to effort ratio... meaning you'll get maximum return on any effort invested.

12 Are the passive incomes covered in Passive Cashflow Secrets for online or offline or both?

Online. I don't know anything about offline marketing. I've spent over a decade making money online, and I know how that works inside out. :-)

13 I would like to know if Passive Cashflow Secrets will help me change my thinking and allow me to be the creator of my own life.

I certainly hope it will change how you think about making money online. Passive cashflow will help change the direction of you life... which is what I think you meant by becoming the "creator of my life".

14 Will it help to leverage your time to get the most done in the most time efficient manner?

Yes. Passive cashflow is the ultimate leverage of your time. :-) I devote a whole movie to the time vs income relationship.

15 So what I would like to know is that "Passive Cashflow Secrets" is not based on selling eBooks on Internet Mkt, Traffic Gen, List Building or SEO ect.

No, it's not about selling ebooks on Internet marketing topics. :-)

16 I would like to know if Passive Cashflow Secrets really teaches how to set up a truly passive income.

Yes. That's the whole point. Some are absolutely, totally passive, and some are as close to passive as you can get without being 100% passive. All have made me large amounts of money... unlike putting your money in the bank... which pays a tiny amount of passive income.

17 How does an eight year old website stay current and still keep producing? How do you keep traffic flowing?

You are assuming I still need traffic to that website. ;-)
