... for your chance to win a copy!

Hi,

Welcome to this free report. ☺

Let me explain to you how Passive Cashflow creates **more time, more money and better relationships!**

Unlike a lot of Internet marketers, **I don't often release products**. The last one I released was "Insider Rollout Secrets", about **18 months** ago.

If you're on any of my mailing lists, you'll also know that I also **don't bombard you with all the latest products that other marketer's are offering**.

So what am I playing at... ?

Why do I release and endorse so few products?

How can my business keep going, keep throwing off cash, when it looks like **I don't actually do anything?** ☺

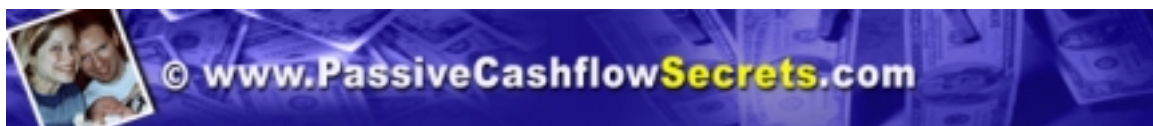

The answer is simple... I've built **multiple streams of passive cashflow** into my business... and I regularly get money sent to my PayPal account and checks in my mailbox because of projects I did months or years ago.

[In one of the Passive Cashflow Secrets movies I describe a system that's been paying me **since the year 2000**... a total of about **\$30,000** that I haven't lifted a finger to earn since 1999!]

It's this Passive Cashflow that allows me to be **very choosy** about what I sell and what I endorse. If it's not quality, then my lists don't get to hear about it!

In fact, if I were on my own list, I would judge which products were quality and which weren't by whether or not Neil mentions them. ;-)

I have the **luxury of time**... picking and choosing what products to release, what to endorse and when to put my feet up (which is whenever I like!) ☺

When you have cash coming into your bank account from various different sources, and you don't have to actively do any work for it, it's the best feeling.

Have you ever looked at your bank account statement and seen the "interest paid" and thought, "**Wow. That's cool. I earned some money without doing anything**".

That feels good, right?

Now **multiply that feeling a hundred times, or a thousand times** and you'll get an idea of how good it feels to have cash pouring into your bank every month for something you did ages ago.

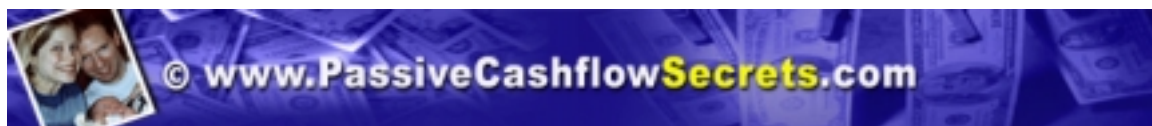

[People also know me for my honesty. I started the <http://www.ScamFreeZone.com> website back in 1997 to help people avoid scams and fraud online. So, in the interests of full honesty, I need to let you know that there's no such thing as "money for nothing".

Passive Cashflow Secrets doesn't show you how to create money from thin air. What it does do is **show you the many ways you can build Passive Cashflow streams for yourself online**. Once you know what to look for, you can use the knowledge to build your own Passive Cashflow streams and when they're up and running you'll be earning money month after month... without any additional effort.]

If you've been in the Internet Marketing field for any length of time, you'll know how marketers **hype their products** prior to launch. With multiple launches happening at any given time, the hype becomes immense. You can get multiple emails promoting the same products, with different bonus offers, limited deadlines and exclusive deals. It's all hype-hype-hype.

Personally, I'd much rather **sit back, relax and do my own thing**... like taking my wife out for coffee, playing with my kids or building another Passive Cashflow stream... I kinda build them for fun now. 😊

I can **make more money** because **I'm free to work on new projects** while cash keeps coming into my bank account. I can use the extra time to build new revenue streams instead of having to work 9 to 5 just to pay this month's bills. That's not a nice way to live. How can you ever get ahead if you're stuck in a rat race?

Like I said, **having Passive Cashflow gives you the luxury of time.** You can relax. You can make the right decisions because you're not stressed out when considering your options.

You can respect your online friends because you're not hassling them to promote your latest product. You can **build true relationships** with your lists because you're not hassling them to buy your stuff, or other people's stuff all the time. Not only your lists and online friends, but **your relationships with your partner, kids and family** will benefit because of the time you can spend with them.

Seriously. **Passive Cashflow is the most important element of your online success.** When you can recognize Passive Cashflow and actively build it into your life, your stress levels will fall. **When your passive income exceeds your bills, you're effectively rich.** At that point you don't need to get out of bed if you don't want to!

So, if you're going to build an online business and make money online, **make sure you do it the right way.** Discover the different online ways to earn Passive Cashflow online and build them into your business **from the beginning.**

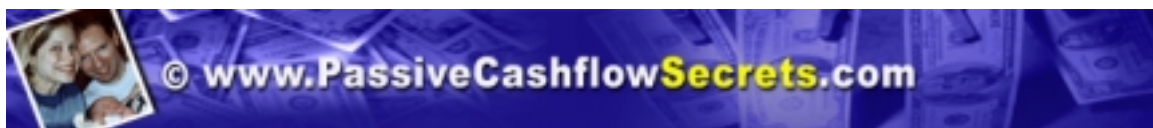

In Passive Cashflow Secrets, I show you all my passive cashflow sources and include full details so that you can see how to recognize and create your own Passive Cashflow streams.

You can win a copy of Passive Cashflow Secrets... just click this link and follow the simple instructions...
